CITY OF AIKEN

CERTIFICATE OF APPROPRIATENESS APPLICATION

Historic Overlay District

IMPORTANT INFORMATION

WHAT WORK REQUIRES A CERTIFICATE?

For *any* property that is in an Aiken Historic Register "District" or which City Council has designated a "Historic Site," a "Certificate of Appropriateness" must be obtained **before** any exterior alteration, construction, demolition, or relocation is done. This applies to the structures in the "Project Checklist." However, it does not apply to most play equipment, benches, mailboxes, and birdbaths.

Approval is <u>not</u> required for interior renovations; exterior painting of previously painted surfaces; and installing, moving, pruning, or eliminating plants or trees that have not been designated as Historic Sites. In Districts, a change in the color, texture, and/or composition of a material requires a Certificate when the location of the work would be visible from a public street right-of-way if all existing vegetation and fences did not exist – even if the difference would not be discernable from the street. For a Historic Site, approval is needed for all exterior changes, including those that are not visible from a street right-of-way.

HOW WILL YOUR APPLICATION BE REVIEWED?

At least 15 days before the Design Review Board meeting at which they are to be considered, the completed application form and all required submittals must be returned to:

City of Aiken Planning Department 214 Park Avenue, SW - Suite 202 (P.O. Box 1177) Aiken, South Carolina 29802 (Telephone: (803) 642-7608 Fax: (803) 642-7727)

The Board normally holds its regular monthly meetings on the first Tuesday of each month. The advertised location of the meetings is the City Council Chambers, which is on the second floor of the Municipal Building at 214 Park Avenue, SW. The applicant or his/her agent must attend.

The Board will not consider applications, which are not substantially complete. If work included in a Certificate of Appropriateness application does not conform with existing City zoning or other regulations, the Board will not render a decision on the request until any necessary variance or other approval has been granted by the Board of Zoning Appeals.

For decisions on Certificate of Appropriateness applications, the Zoning Ordinance requires the Board to consider standards stated in the Ordinance, the Secretary of the Interior's Standards for Rehabilitation, and additional design guidelines approved by City Council. Most of the additional design guidelines are found in the *Design Review Manual*, copies of which are available at the Aiken County Public Library and in the City of Aiken Planning Department.

9/15/05

REQUIRED SUBMITTALS

The completed application form and accompanying materials must clearly depict the work requiring approval and its effect on the project site and the surrounding area. The items described below are required:

New construction, exterior alterations, and additions:

One copy of each of the items listed below must be submitted with the application:

- *Drawings*, including plans and exterior elevations, drawn to scale, and no larger than 11" x 17", with sufficient detail to show the exterior location, scale, and extent of the proposed changes;
- Specifications or other information describing proposed materials and textures. Samples of materials may be required;
- Plot plans or site layout, drawn to scale, showing the location of all existing structures and proposed work;
- *Photographs* clearly depicting the project location, contiguous properties, and streetscapes.

Demolition (partial or complete):

- *Photographs* of the structure to be demolished and its surroundings; and
- Documentation in writing that addresses historical, archeological, aesthetic value of the structure to be demolished; and
- Documentation regarding structural integrity (condition) and the integrity of materials, location, and design.

Relocation of a structure or landmark:

If the structure or landmark is to be relocated within a historic district or on a historic site, the submittals listed above for "New construction, exterior alterations, and additions" are required in addition to:

- *Photographs* of the structure to be moved and its context;
- **Explanation** in writing of the reason for the relocation; and
- **Description** of features of any structure, historic site, or the site which will be affected, including foundations, walls, driveways, etc.

Other:

Same as for new construction.
